

This survey was carried out in several waves. The first wave was May 25-August 17, 2001 as part of the Latin America Public Opinion Project of LAPOP. This survey was conducted by the University of Pittsburgh and Encuestas y Estudios under the direction of Dr. Luis Quiroga.

The 2001 survey consisted of face-to-face interviews with members of respondent groups: police, army, navy and police members of all ranks. These interviews were evenly conducted across the 3 Bolivian departments (Cochabamba, La Paz, and Santa Cruz). This special survey has 276 cases.
