Bolivia 2003: Prosecutors

Technical Information

Country	Year	Sample Size	Weighted/Unweighted
Bolivia	2003	District	Unweighted
		Attorneys: 96	

This study forms part of a larger study of Bolivian elites carried out in 2003. Two other samples, that of legislators and judges were also interviewed. For this sample, a total of 96 district attorneys were selected from a universe of 329 district attorneys. The purpose of the study was to collect the opinions of district
