## L P P Lab merica Barometer 2023 Sur ey Roun

The

As in previous rounds of the AmericasBarometer, we conducted online surveys in the U.S. and Canada. In Haiti and Nicaragua CATI interviews were conducted using Random-Digit Dialing (RDD) using mobile phone numbers as sampling frames.

#### The quality control process for the AmericasBarometer 2023 round

Fieldwork Algorithm for LAPOP Control over survey Operations and Norms (FALCON). FALCON gathers information about each interview such as recordings, interviewer images, question and questionnaire timing, and interviewer performance indicators that are daily monitored during data collection to guarantee that each interview meets LAPOP Labs quality control standards.

For the 2023 AmericasBarometer, LAPOP Lab collected data in 26 countries in the Americas, from January to August 2023. All country datasets and reports available for download for free at <a href="https://www.lapopSurveys.org">www.lapopSurveys.org</a>.

The remaining pages of this technical note describe the sample design of the 2023 AmericasBarometer survey in the Dominican Republic.

#### 2023 merica Barometer: Dominican Repubic

This survey was carried out between April 17<sup>th</sup> and June 3<sup>rd</sup> 2023, as part of LAPOP 2023 AmericasBarometer. It is a follow up to Dominican Republic surveys of 2004, 2006, 2008, 2010, 2012, 2014, 2016, 2019, and 2021. The 2023 survey fieldwork was carried out by CID Gallup on behalf of LAPOP.

serious errors, and we refuse to accept (that is, we require the cancelation of) low quality interviews.<sup>3</sup>

The local firm audited 100% of interviews. All interviews we
