

Peru 1998

Technical Information

Peru	1998	1,784	Unweighted
------	------	-------	------------

A sample of 1,508 respondents was drawn from the adult population through a national multistage probability sampling method. Apoyo, Opinión -known survey research organizations conducted the interviews face-to-face. Funding was generously supplied by The United States Agency for International Development (USAID).

There was not an individual report presenting the results of this study. However, results were analyzed in

by Mitchell A. Seligson and Julio Carrion, and published in *Comparative Political Studies*, Vol. 35, No.1 (February, 2002), pp. 58-82. Readers can access the publication through a link on the LAPOP website: <https://www.vanderbilt.edu/lapop/peru.php>.
